

ABOUT PHYSIOLAB

PHYSIOLAB are a UK-based medical devices company who supply highly effective cooling and compression products to aid orthopaedic swelling and pain management.

HOW WE HELP

Treatments using the PHYSIOLAB device are controlled, safe and efficient. They are also hospital friendly and portable, meaning patients can begin treatments immediately post-surgery

- ✓ Effective pain management
- ✓ Swelling (oedema) reduction
- ✓ Inflammation control
- ✓ Improved mobilisation
- ✓ Quicker rehabilitation/recovery

WHEN WE HELP

Common surgery types where PHYSIOLAB complements post-surgical recovery:

- ✓ Knee surgery (ie. ACL, TKR, HTO)
- ✓ Shoulder surgery (ie. Rotator cuff surgery)
- ✓ Hip surgery (ie. THR)
- ✓ Ankle surgery (ie. reconstruction surgery)

USE PHYSIOLAB AT HOME

PHYSIOLAB offer short-term post-surgical packages that enable patients to utilise products in their time of need. Order yours today to utilise PHYSIOLAB following surgery!

97% of post-surgical customers said that PHYSIOLAB was effective at reducing their swelling.

HOW TO ORDER

[physiolab.com](https://www.physiolab.com)

To order head to the shop section of our website. Select your desired package (ie. knee, hip, shoulder or ankle) and the amount of time PHYSIOLAB is required (up to 24 weeks).

£25 OFF PACKAGES
